

[This foreword and the “Overview” on the following pages are not part of this Test Package. They are merely informative and do not contain requirements necessary for conformance to the Test Package.]

FOREWORD

The purpose of this addendum is to present current changes being made to the BTL Test Package. These modifications are the result of change proposals made pursuant to the continuous maintenance procedures and of deliberations within the BTL-WG Committee. The changes are summarized below.

BTL-TP15.0d-1: Checklist will mention FAULT_LISTED Algorithm, pg 2. [BTLWG-35, wID0886]

BTL-TP15.0d-2: Checklist will mention File object, pg 3.

In the following document, language to be added to existing clauses within the BTL Test Package 15.0 is indicated through the use of *italics*, while deletions are indicated by ~~strikethrough~~. Where entirely new subclauses are proposed to be added, plain type is used throughout

In addition, changes to BTL Specified Tests also contain a **yellow** highlight to indicate the changes made by this addendum.

When this addendum is applied, all highlighting will be removed. Change markings on tests will remain to indicate the difference between the new test and an existing 135.1 test. If a test being modified has never existed in 135.1, the applied result should not contain any change markings. When this is the case, square brackets will be used to describe the changes required for this test.

Each addendum can stand independently unless specifically noted via dependency within the addendum. If multiple addenda change the same test or section, each future released addendum that changes the same test or section will note in square brackets whether or not those changes are reflected.

BTL 15.0d-1: Checklist will mention FAULT_LISTED Algorithm

Overview:

Addendum 135-2012aq-3 at Protocol_Revision 18 added new FAULT_LISTED algorithm to vertical transport objects that provide fault reporting, and to the Event Enrollment object.

Changes:

[In BTL Checklist, add new sections as shown here]

Alarm and Event - Notification - Internal - B

Support	Listing	Option
. . .		
	<i>C^{3,5,7}</i>	<i>Implements the CHANGE_OF_RELIABILITY – FAULT_LISTED Algorithm</i>
. . .		
⁵ Contact BTL for interim tests for this algorithm. ⁶ Protocol_Revision 17 or higher must be claimed. ⁷ Protocol_Revision 18 or higher must be claimed.		

Alarm and Event - Notification - External - B

Support	Listing	Option
. . .		
	<i>C^{1,2,4}</i>	<i>Implements the CHANGE_OF_RELIABILITY – FAULT_LISTED Algorithm</i>
. . .		
² Contact BTL for interim tests for this algorithm. ³ Protocol_Revision 17 or higher must be claimed. ⁴ Protocol_Revision 18 or higher must be claimed.		

BTL 15.0d-2: Checklist will mention File object

Overview:

Addendum 15.0b-1 overlooked the omission of File object, which should similarly be mentioned in order to provide a place to report additional functionality.

Changes:

[In BTL Checklist, add new section as shown here]

Support	Listing	Option
