

Clarification Request

References: BTL Test Plan-5.0.final section 4.9.8 wrong test reference test 9.2.1.2

Background:

4.9.8 Can Subscribe for COV from Loop Objects

The IUT can subscribe for, receive, and process Change of Value notifications from Loop objects.

BTL - 9.2.1.2 - Change of Value Notification from Loop Objects		
	Test Method	Manual
	Configuration	As per <i>BTL Specified Tests</i> .
	Test Conditionality	Either 9.2.1.2 or 9.3.X7 must be executed.
	Test Directives	
	Testing Hints	
	Notes & Results	

This test is not in the BTL specified tests but exists in 135.1-2007

Question:

Should BTL Test Plan-5.0.final section 4.9.8 instead reference
135.1 - 2007 - 9.2.1.2 - Change of Value Notification from Loop Objects Test?

Response:

Yes.
