# INTERIM TEST SPECIFICATION

To Be Used with Test Package 26.1  
Version 1  
November 25, 2025

Published on December 17, 2025

## Foreward

The purpose of this document is to define interim tests and other test package changes made to support testing of a device that supports functionality currently not covered in the released BTL Test Package. This document shall be applied and used with BTL Test Package 26.0.

Vendors who are planning to submit a device for testing and who implement Protocol\_Revision 27 and higher, or which contain functionality not covered by the Official Test Package, should use this Interim Test document.

Please note that if the device contains functionality not yet covered by the official Test Package, nor by the Interim Tests document, development of new tests may be required for your device. Please contact the BTL Manager before submitting your device for testing to ensure you are aware of all tests that will need to be applied to your device.

The changes in this document are for interim use only and may or may not be used as documented here when the final changes are applied to the next Test Package revision. Devices tested using this interim test document shall be recalled for updated testing when the next revision of test package is released that includes the topics covered here.

In the following document, language to be added to existing clauses of ANSI/ASHRAE 135.1-2023 or any part of the Test Package 26.0 are indicated through the use of *italics*, while deletions are indicated by ~~striketrough~~. Where entirely new sections are proposed to be added, plain type is used throughout.

**Contents**

**BTL TEST PLAN CHANGES .....3**

**BTL SPECIFIED TESTS CHANGES.....4**

---

---

## BTL Test Plan Changes

---

This section of the document contains interim changes to the BTL Test Plan document to support testing of products with functionality outside the scope of the official test plan.

This section is ordered the same as the BTL Checklist and BTL Test Plan documents to allow easy navigation of the material.

All test changes can be found in the next major section.

*There are no interim tests at this time.*

---

---

## BTL Specified Tests Changes

---

This section contains all of the new and changed tests required by the interim test BTL Checklist and BTL Test Plan changes.

*There are no interim tests at this time.*

Version	Date	Author	Change
